The National Association of School Nurses is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

This training is made possible through a grant from the Centers for Disease Control and Prevention (Grant #U58DP000606-03). Its contents are solely the responsibility of the authors and do not necessarily represent the views of the CDC.

Participants will learn:

- The impact of seizures on learning and behavior.
- Current treatment options and their side effects.
- Simple strategies for creating a more positive and supportive environment.
- Critical issues related to medication administration and delegation.
- Key components of a seizure action plan.
- Appropriate first aid for all seizure types.
- The essential elements of a seizure training for school personnel.
- Steps you can take now to help maximize educational and developmental opportunities for students with seizures.
